

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, JUNE 26, 2006 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 3

CURRENT SITUATION:

Initial attack activity was light nationally with 117 new fires reported. Thirteen new large fires (*) were reported, nine in Western Great Basin, two in the Eastern Great Basin, and one each in the Southern California and Southwest Areas. Eleven large fires were contained, two each in the Southwest, Western Great Basin, Rocky Mountain, Southern California, and Southern Areas, and one in Northern California Area. Very high to extreme fire indices were reported in Arizona, California, Colorado, Montana, Nevada, New Mexico, Texas, Utah and Wyoming.

The National Interagency Fire Center has deployed two Modular Airborne Fire Fighting Systems (MAFFS) C-130 air tankers from the 145th Tactical Airlift Wing based in Charlotte, North Carolina. Mission Commander Lieutenant Colonel Mike Luckie, the air tankers and support personnel are based in Mesa, Arizona.

SOUTHWEST AREA INCIDENTS/LARGE FIRES:

An Area Command Team (Loach) is assigned to manage the Reserve, Skates, and Bear fires on the Gila National Forest.

BRINS, Coconino National Forest. A Type 1 Incident Management Team (Broyles) is assigned. This fire is two miles northeast of Sedona, AZ in brush, chaparral and timber. Numerous residences, commercial structures, endangered species habitat, the Oak Creek watershed and Oak Creek Scenic Highway remain threatened. Evacuation orders for some residents of Oak Creek Canyon remain in effect, and a section of Highway 89 remains closed to the public. Backing and flanking fire with single tree torching and short runs was observed. Fire growth was minimal.

BEAR PAW, Sante Fe National Forest. A Type 2 Incident Management Team (Raley) will assume command today. This fire started on state land two and a half miles northeast of Regina, NM in ponderosa pine and litter. Numerous residences, powerlines and the communities of Gallina Plaza and Bear Paw remain threatened. Mandatory evacuations for the community of Gallina Plaza and voluntary evacuations for the community of Bear Paw are in effect. Extreme fire behavior with group torching, short crown runs and flame lengths of 60 to 150 feet was reported.

BEAR, Gila National Forest. A Type 1 Incident Management Team (Dietrich) is assigned. This fire is 15 miles northeast of Glenwood, NM in mixed conifer. Numerous residences, wildlife habitat and historical cabins remain threatened. Crews continued to make progress with line construction. Higher relative humidity and precipitation moderated fire behavior.

WARM, Kaibab National Forest. A transfer of command from a Fire Use Management Team (Hahnenburg) to a Type 2 Incident Management Team (Reinarz) will occur today. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning three miles south of Jacob Lake, AZ in ponderosa pine and hardwood litter. The Jacob Lake development area, administrative sites, a historical Ranger Station, and private and public campgrounds remain threatened. All highways are currently open. Backing and flanking fire, short uphill crown runs and high rates of spread were reported.

SKATES, Gila National Forest. A transfer of command from a Type 2 Incident Management Team (Philbin) back to the local unit will occur today. This fire is 12 miles northeast of Silver City, NM in timber. The fire received some precipitation. Minimal fire behavior was reported.

RESERVE COMPLEX, Gila National Forest. A Type 2 Incident Management Team (Lund) is assigned. This complex, comprised of the Wilson and Martinez fires, is located near Reserve, NM in ponderosa pine, pinyon pine, juniper and grass. No further information was received.

HOSPITAL, San Carlos Agency, Bureau of Indian Affairs. This fire is 20 miles northeast of San Carlos, AZ in grass, juniper and timber. Cultural resources and wildlife habitat are threatened. Difficult access and high winds are hampering containment efforts. Extreme fire behavior was reported.

EICKS DRAW, Socorro District, New Mexico State Forestry. This fire is 35 miles south of Animas, NM in grass, juniper and mixed conifer. No New information was reported.

ROCKY MOUNTAIN AREA INCIDENTS/LARGE FIRES:

COOLBROTH, Rio Grande National Forest. A Type 2 Incident Management Team (Turman) has been ordered. This fire is 13 miles north of Del Norte, CO in timber and grass. Several structures are threatened. Travel on Forest Road 41G has been restricted. High rates of spread were reported.

MATO VEGA, Costilla County. A Type 2 Incident Management Team (Blume) is assigned. This fire is 12 miles northeast of Fort Garland, CO in timber, logging slash and grass. Numerous residences remain threatened. Evacuation order for the remaining subdivisions was lifted. Highway 160 is open with warning devices and speed control in place. Creeping, smoldering and single tree torching were reported.

LITTLE VENUS, Shoshone National Forest. A Fire Use Management Team (Weldon) will assume command today. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is burning 30 miles west of Meeteetse, WY in timber. Structure protection for Venus cabin is in place. Backing fire was reported.

WESTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

SUZIE, Elko Field Office, Bureau of Land Management. A Type 2 Incident Management Team has been ordered. This fire is three miles northeast of Carlin, NV in grass and sagebrush. Numerous residences, commercial property and other structures are threatened. Structure protection is in place. Steep terrain is hindering containment efforts. Very active fire behavior was reported on all fronts.

BALLS CANYON, Humboldt-Toiyabe National Forest. A Type 2 Incident Management Team has been ordered. This fire is 10 miles northwest of Reno, NV in timber. Private ranches and residences are threatened. Smoke is affecting the landing operations of commercial aircraft into Reno. Strong, gusty winds and steep terrain are making containment difficult. Active fire behavior on all fronts was reported.

ELBURZ 1, Nevada Division of Forestry, Northern Region. This fire is 17 miles east of Elko, NV in grass and sagebrush. Structures and outbuildings are threatened. High winds hampered containment efforts. Active fire behavior with running and spotting was reported.

SQUAW, Winnemucca Field Office, Bureau of Land Management. This fire is 15 miles north of Gerlach, NV in grass and brush. Active fire behavior was observed.

EMPIRE, Winnemucca Field Office, Bureau of Land Management. This fire is 12 miles south of Gerlach, NV in brush. A power station and power lines are threatened. Gusty, erratic winds are hindering containment efforts. Active fire behavior was reported.

GRAYROCK, Elko Field Office, Bureau of Land Management. This fire is 12 miles northwest of Elko, NV in grass and sagebrush. Several residences and a ski resort are threatened. High winds and limited access due to terrain are making containment difficult. Very active fire behavior with running and spotting was reported.

ECHO, Ely Field Office, Bureau of Land Management. This fire is eight miles east of Pioche, NV in grass and sagebrush. Several structures are threatened. Active fire behavior with running and spotting was reported.

SHERWOOD, Ely Field Office, Bureau of Land Management. This fire is 15 miles north of Adaven, NV in grass and sagebrush. Erratic winds resulted in active fire behavior, with running and torching observed.

EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

KOLOB, Zion National Park. A Type 2 Incident Management Team (Brunner) is ordered. This fire is five miles north of Virgin, UT in pinyon pine, juniper and mixed brush. Evacuation of nearby structures has occurred. Structure protection is in place in Rockville and Springdale communities. Limited access into remote areas is impeding containment efforts. Extreme fire behavior with spotting, torching and running was observed.

JARVIS, Southwest Area, Utah State Division of Forestry Fire and State Lands. This fire is 11 miles southwest of George, UT in pinyon pine, juniper and mixed brush. Commercial properties, utility infrastructure, an FAA repeater site, Joshua Tree Natural Area and desert tortoise habitat are threatened. Old highway 91 is closed. Steep terrain is impeding containment efforts. Extreme fire behavior with spotting and running was reported.

POT HOLE, Northeast Area, Utah State Division of Forestry Fire and State Lands. This fire is 25 miles northeast of Vernal, UT in sagebrush, grass and timber. Steep terrain continues to impede containment efforts. Smoldering, creeping and occasional torching were observed. Increase in acreage is due to more accurate mapping.

LION CREEK, Manti-Lasal National Forest. This fire is five miles northwest of Paradox, CO in ponderosa pine, pinyon pine, brush and grass. No further information was received.

OUTLOOK:

Fire Weather Watches: The Rocky Mountain Area in western Colorado and the south-central Colorado mountains for dry lightning. Across parts of the Western Great Basin Area in central and northern Nevada for dry lightning.

Weather Discussion: High pressure continues to dominate the West with much above normal temperatures. Thunderstorms will develop across much of the west today with drier storms west of the Continental Divide. In Alaska, a warming and drying trend will begin in the west with thunderstorms possible in the interior.

| Geographic Area Weather | High Temperatures | Minimum Relative Humidity | Wind |
|--|--|--|--|
| <p>Southwest Area Mostly sunny, hot and dry across northern Arizona and northwest New Mexico, with a few dry thunderstorms along the Mogollon Rim and western portion of the Continental Divide in northwest New Mexico. Partly cloudy with widely scattered mixed wet/dry storms southern Arizona. Scattered thunderstorms with wetting rainfall across western and central New Mexico and into parts of west Texas, otherwise isolated late day thunderstorms west Texas.</p> | <p>Around 80 to near 110 lower elevations. 60s to mid 80s mountains and the plains of northeast New Mexico and adjacent west Texas.</p> | <p>5 to 15% northern and western Arizona. 15 to 25% eastern and southeast Arizona. 20 to 35% west Texas and eastern New Mexico.</p> | <p>North to northeast 5 to 15 mph with gusts to 20 mph northern Arizona and far northwest New Mexico. East to southeast 10 to 20 mph southeast Arizona and southern New Mexico into southwest Texas. Variable 5 to 15 mph southwest Arizona. South to southeast winds 5 to 15 mph much of central into western New Mexico. Winds to be erratic and very gusty in and around thunderstorms.</p> |
| <p>Rocky Mountain Area Scattered thunderstorms over southeast Colorado. Otherwise isolated dry lightning across southwest Wyoming, and isolated to widely scattered dry storms in western to south-central Colorado.</p> | <p>Lower 80s in most locations, with upper 80s in west-southwest Colorado, and 65 to 75 in the mountains.</p> | <p>Lowest across central/northern Colorado and Wyoming in the lower elevations with values ranging from 10 to 20%, and from 18 to 30% elsewhere.</p> | <p>Northeast in most locations with speeds ranging from 5 to 15 mph.</p> |
| <p>Eastern Great Basin Area Idaho, Bridger-Teton: Mostly sunny except partly cloudy with isolated afternoon thunderstorms in western Wyoming.</p> <p>Northern Utah: Mostly sunny with isolated afternoon mountain thunderstorms.</p> <p>Southern Utah, Arizona Strip: Mostly sunny with isolated afternoon mountain thunderstorms.</p> | <p>Idaho, Bridger-Teton: 72 to 88 mountains. 82 to 97 valleys.</p> <p>Northern Utah: 73 to 83 mountains. 83 to 96 valleys.</p> <p>Southern Utah, Arizona Strip: 76 to 90 mountains. 90 to 110 valleys. 107 to 114 low deserts.</p> | <p>Idaho, Bridger-Teton: 15 to 30% mountains. 10 to 20% valleys.</p> <p>Northern Utah: 15 to 24% mountains. 10 to 20% valleys.</p> <p>Southern Utah, Arizona Strip: 13 to 20% mountains. 6 to 19% valleys.</p> | <p>Idaho, Bridger-Teton: Upslope/upvalley 5 to 10 mph, except northeast 10 mph in southeast Idaho.</p> <p>Northern Utah: North 15 mph in the west. Upslope/upvalley 5 to 10 mph in the east.</p> <p>Southern Utah, Arizona Strip: Northeast 20 mph in the west. Upslope/upvalley 5 to 10 mph in the east.</p> |

| Geographic Area Weather | High Temperatures | Minimum Relative Humidity | Wind |
|--|--|---|---|
| Southern California Area Morning low clouds and fog coastal areas, otherwise partly cloudy with a few afternoon showers and thunderstorms mainly over the Sierra and over the mountains and deserts of Southern California. | 80 to 95 mountains. 95 to 105 valleys. 95 to 105 upper deserts. 105 to 115 lower deserts. | 40 to 60% coastal areas. 15 to 30% valleys. 15 to 30% mountains. 5 to 15% deserts. | Southeast to southwest 5 to 15 mph. |
| Alaska Area Partly to mostly cloudy with scattered showers. Chance of thunderstorms in the central and eastern interior. Steadier rain south of the Alaska Range. Rain showers heavy at times in the eastern interior. | 50s and 60s in the west and south to 70s in the central interior. | 25 to 40% in the interior. Above 40% in south central and southwest. | South to southwest winds 10 to 15 mph. |
| Western Great Basin Area Hot with isolated to scattered thunderstorms; most storms across central and eastern Nevada will be dry while storms further west will produce some rainfall and also some dry lightning. Storms will be wettest across the Sierra's. | Northern valleys: 86 to 102. Southern valleys: 97 to 117. Northern mountains: 78 to 88. Southern mountains: 85 to 95. | Northern valleys: 6 to 16%. Southern valleys: 4 to 14%. Northern mountains: 10 to 22%. Southern mountains: 7 to 14%. | Variable but mainly from the north at 6 to 12 mph. |
| Northern Rockies Area Upper level ridge maintains with warm, dry conditions and sunny skies for Idaho and Montana. North Dakota will be under cooler northerly flow with partly cloudy skies and a chance of thundershowers. | West of Divide: 85 to 95. East of Divide: 80 to 90. North Dakota: 75 to 85. | West of Divide: 15 to 25%. East of Divide: 25 to 35%. North Dakota: 30 to 40%. | West of Divide: east 5 mph. East of Divide: north 5 to 10 mph. North Dakota: north 5 to 10 mph. |
| Southern Area No information reported. | | | |
| Northern California Area No information reported. | | | |

FIRE NOT SCOUTED AND SIZED UP

Watchout Situation #1 comes up during initial attack and every time resources arrive at a fire.

- Before taking action on the fire, the following considerations must be addressed:
 - Can you personally observe the fire or must you use scouts? Describe ways you can scout and size up a fire.
 - Do you know the location of the fire perimeter? Discuss situations in which the fire perimeter may not be obvious. (Spotty fires, etc.)
 - Do you know the direction of fire spread? When isn't the direction of fire spread obvious? (Wind shifts, spotty fires, etc.)
 - Does the direction of fire spread increase risk? Talk about situations where you may have to approach the head of the fire. (Hiking down from a helispot, approaching from an existing road, switching winds, etc.)
 - Do you know the fuels and their condition? What kind of information will you assume from what you already know about fuel types? (Spot fires in fir, extreme fire potential in flashy fuels, etc.)
- Continued from above...
 - Do topographic hazards exist? What can you assume from what kind of terrain the fire covers? (Slope, chimneys, aspect, etc.)
 - Does enough information exist to establish a plan of attack? When do you have enough information to begin fighting fire? What do you need to know?
 - Do other dangers exist? Have you talked about factors specific to the area you are working in? (Hunters in the woods, drought, snag patches, etc.)
- To reduce the risks:
 - Post lookouts until the fire is sized up and escape routes and safety zones are established.
 - Retreat if the situation is too complex. Review fires where you had to wait until the area in which you were assigned to work was scouted and sized up before you were allowed onto the fireline.
